THE PLOT — LEAKED ASSEMBLY CUT

ACT 1

INCURSION BEGINS

OPENS on Tobey Maguire's Spider-Man vs Hugh Jackman's Wolverine in a collapsing alternate universe — a universe Doctor Doom has already destroyed. Earth-616, Earth-828 (Fantastic Four), and the original X-Men universe all collide. The Avengers, Fantastic Four and X-Men must unite under one impossible threat.

ACT 2

THE WOLF IN SHEEP'S CLOTHING

Doom alloys himself to Earth's heroes with seemingly noble intentions — claiming he can STOP the incursions. He used the TVA to manipulate events across timelines. Doom killed Loki. He secretly weaponized the heroes themselves, using their power to build the incursion cannons that destroy universe after universe. Ian McKellen's Magneto rules Genosha with Wanda + Pietro variants as royalty.

ACT 3

DOOMSDAY — DOOM BECOMES GOD

Steve Rogers confronts Doom. Doom reveals: his wife and child were killed by the shockwave from Steve's time heist in Endgame (2019). Doom's true plan was NEVER to save the Multiverse — he ALLOWED the incursions so that he could rebuild reality in his own image as GOD OF BATTLEWORLD, then resurrect his dead family in a perfect universe. The Avengers lose.

WHY DOOMSDAY IS THE MOST IMPORTANT MCU FILM EVER

THE ENDGAME SUCCESSOR

Avengers: Endgame (2019) was a \$2.79B cultural moment — the culmination of 11 years. Doomsday is its true spiritual sequel. The same Russo Brothers returned specifically for this. It carries the full emotional weight of 15 years and 38 MCU films of storytelling.

1

THE BOLDEST CASTING GAMBLE IN HOLLYWOOD HISTORY

Bringing Robert Downey Jr. back as the VILLAIN after he played the franchise's greatest HERO is unprecedented. Tony Stark sacrificed himself to save the universe. Victor Von Doom wants to DESTROY universes to save his family. Same actor — completely different soul.

2

THREE UNIVERSES — ZERO GUARANTEED SURVIVORS

For the FIRST time in MCU history, THREE separate universe continuities share the screen: Earth-616 Avengers + Earth-828 Fantastic Four + original X-Men universe. Beloved characters confirmed dead. The MCU will never look the same after December 18.

3

THE SECRET CAMEO EXPLOSION

Tobey Maguire's Spider-Man. Hugh Jackman's Wolverine. Ryan Reynolds' Deadpool. Ian McKellen's Magneto. Channing Tatum's GAMBIT. Patrick Stewart's Professor X. This is the most fan-service loaded film Marvel has EVER made — and it's ALL plot-relevant.

4

BATTLEWORLD IS COMING — THE GRAND FINALE BEGINS

Doctor Doom's endgame is to become GOD of a rebuilt Multiverse called Battleworld. Doomsday ends with Doom winning. Secret Wars 2027 is where heroes fight back. Everything — EVERYTHING — in the MCU since 2008 has been leading to this.

5

DOOM IS COMING.

AND NOTHING WILL EVER BE THE SAME.
